About Me

Junior AI/Backend Engineer with hands-on experience building web applications, REST APIs, RAG systems, and automation bots. Completed academic practice at the Financial Monitoring Agency of Kazakhstan (AFM RK). Passionate about LLMs, GenAI, backend engineering, and intelligent automation. Actively seeking a Junior or Intern role in AI/ML, Backend, or Full-Stack development.

Skills

Languages	Python	JavaScript	C++	SQL	HTML	CSS		
Backend	FastAPI	Node.js	Express	Laravel	REST API	PostgreSQL	MongoDB	MySQL
Frontend	React.js	Next.js	HTML/CSS					
AI / ML	RAG	LLM	GPT-4o	ChromaDB	Scikit-learn	Transformers	Embeddings	
DevOps	Docker	Git	AWS					
Automation	Playwright	Web Scraping						
Human lang.	Russian — fluent		Kazakh — native		English — B2			

Experience

Financial Monitoring Agency of Kazakhstan (AFM RK) <i>Developer — Academic Practice / Dual Education Program</i>	Dec 2025 – May 2026 Astana, Kazakhstan
--	---

- Worked with structured datasets and supported analytical data-processing workflows in a real institutional environment.
- Assisted in automation and optimization of data handling processes.
- Gained exposure to data quality, system reliability, and compliance requirements in a regulatory context.
- Strengthened skills in data engineering and intelligent automation.

Nazarbayev Intellectual School (NIS) <i>Backend Developer Intern</i>	2025 Astana, Kazakhstan
--	----------------------------

- Developed backend logic on Laravel and Node.js for internal school systems.
- Built REST API endpoints, implemented authentication and data processing.
- Collaborated in an engineering team following clean code principles.

Projects

GentryGuide — AI Fashion Advisor <i>RAG-powered full-stack web app</i>	genrty-guide-noi9.vercel.app Diploma / Capstone Project
--	---

- Built an AI-powered men's fashion advisor using RAG architecture.
- Stack: FastAPI, React, ChromaDB, GPT-4o (OpenAI API), PostgreSQL.
- Implemented semantic search over a fashion knowledge base with embedding-based retrieval.

BLS Spain Visa Slot Monitor <i>Telegram automation bot</i>	github.com/Sk1pe1337/parcing Personal Project
--	---

- Monitors visa appointment availability on the BLS Spain Kazakhstan portal.
- Stack: Python, Playwright, aiogram, PostgreSQL, Docker.
- Implemented CAPTCHA solving, cookie management, and real-time Telegram notifications.

Restaurant E-Menu

Full-Stack Web App

Personal Project

- Digital menu with categories, dishes, and an admin panel.
- Stack: Node.js + MongoDB (backend), React (frontend).

Price Prediction ML Model

Machine Learning

Personal Project

- Regression model with Scikit-learn for product price forecasting.
- Performed preprocessing, feature engineering, and model evaluation.

Education

Astana IT University

Bachelor of Software Engineering — 6B06102

2023 – 2026 (expected)

Astana, Kazakhstan

Aktobe College of Transport, Communication and New Technologies

Information Technology

2018 – 2022

Aktobe, Kazakhstan

Military Service

Military Unit 5548 — Republic of Kazakhstan Armed Forces

Conscript

Completed

Zhanaozen, Kazakhstan
